

You'll never guess what's hidden here  
beneath this crumbling stone—  
a story sleeping in the dust,  
unread, unheard, unknown.

No one noticed when the tale  
sank darkly to its doom;  
no quests or conflicts thrill us now—  
they're buried in the tomb.

If battles raged, who won them?  
Were duels fought, blood spilled?  
We'll never know the answer, since  
the story, too, was killed.

Grand adventures, lost for good,  
lie sealed within a coffin's wood.  
They won't delight by campfire light  
on this or any other night.

But here's a twist, a strange surprise:  
the tale floats up before our eyes!  
Be brave—it might try scaring you.  
That's what *ghost* stories do.
